

Results from the KASCADE-Grande experiment

Thursday, 8 October 2015 10:00 (30)

In this talk I will review and discuss the results obtained with the KASCADE-Grande in the study of the spectrum, chemical composition and anisotropy of primary cosmic rays in the 10^{16} - 10^{18} eV energy range

Presentation type

Plenary (25+5 min)

Primary author(s) : CHIAVASSA, Andrea (Università degli studi di Torino)

Presenter(s) : CHIAVASSA, Andrea (Università degli studi di Torino)

Session Classification : Cosmic rays - plenary I

Track Classification : Cosmic rays
