

Interdisciplinary glossary – elementary particle accelerators and medicine

Wednesday, 7 October 2015 14:30 (30)

A general concept of a new interdisciplinary glossary, which includes particle accelerator terminology used in medicine, as well as relevant medical concepts, is presented. Its structure and usage rules are described. An example, illustrating the quickly searching technique of relevant information of this Glossary is considered. A website addresses, where one can get an access to the Glossary, is specified. Glossary can be refined and supplemented.
