

The cross section of inverse beta decay: a review.

Tuesday, 6 October 2015 14:30 (30)

We have reviewed the modern status of the cross section of inverse beta-decay. Our analysis consist of two parts: discussing so-called “naive” cross section and its corrections. The “naive” cross section energy dependence and the corrections energy dependence are presented.

Presentation type

Section talk (10+5 min)

Primary author(s) : Mr. ORALBAEV, Aldiyar (NRC “Kurchatov Institute”); Mr. TITOV, Oleg (NRC “Kurchatov Institute”)

Co-author(s) : Dr. SKOROKHVATOV, Mikhail (NRC “Kurchatov Institute”, MEPhI)

Presenter(s) : Mr. TITOV, Oleg (NRC “Kurchatov Institute”)

Session Classification : Poster Session I

Track Classification : Nuclear physics and particle physics
