ATLAS results on B_c production and decays

Wednesday, 30 November 2022 18:00 (20)

Recent results on B_c production and decays from the proton-proton collision data taken by the ATLAS experiment will be presented. The measurement of the differential ratios of B_c^+ and B^+ production cross sections at 8 TeV will be shown. New results on the B_c decays to $J/\psi D_s^*$ final states obtained with the Run 2 data at 13 TeV will also be reported.
