The 7th International Conference on Particle Physics and Astrophysics (ICPPA-2024) will be held in Moscow, Russia, (from the 22nd to 25th of October). The conference is organized by National Research Nuclear University «MEPh». The aim of the Conference is to share scientific knowledge, to promote contacts between scientists and to develop new ideas in fundamental research. We will bring together experts and young scientists working in experimental and theoretical areas of nuclear physics, particle physics (including astroparticle physics), and cosmology. Most recent results from the modern experiments in these areas and advanced detector technology development will be presented and discussed.

Conference fee

Regular conference fee is **40000 rubles** (~ 380 euro). The fee includes coffee breaks, conference dinner, social events and organizing expenses (including peer-review of one conference paper).

This year the conference is supported by the Priority 2030 program of Russian Ministry of Science and Education, thanks to it the conference fee for participants from scientific organizations of Russia and from scientific organizations of member-states of EAEU (including JINR) is reduced. Two options are available: full fee of **9000 rubles** and special fee **6000 rubles** (conference dinner is not included). Accompanying person to conference dinner only from scientific organizations of Russia and from scientific organizations of member-states of EAEU (including JINR) **3000 rubles**. Students and PhD students may apply for financial support.

Scientific program

The conference will cover the following topics:

- Astroparticle physics
- Facilities and advanced detector technologies
