Grebeniuk V.M., Slepnyov S.K., Tkachev L.G. Cosmic ray events with electromagnetic showers triggered in the NUCLEON experiment

Thursday, 24 October 2024 16:30 (30)

Dear colleagues, It's a pity, my co-author L.Tkachev has pointed out that the results I wanted to present were not complete, since the results of analysis of the events caused by gamma quanta were not included. I am forced to withdraw as the co-authors were the main designers of the Scintillator fast trigger system on the data from which the results were obtained 7 years ago. S.K. Slepnyov.

Primary author(s) : SLEPNYOV, Stanislav

Co-author(s) : GREBENIUKE, Victor; TKACHEV, Leonid

Presenter(s) : SLEPNYOV, Stanislav

Session Classification : Poster session

Track Classification : Neutrino physics
